

Ouse Valley Viaduct

The Ouse Valley Viaduct (or the Balcombe Viaduct) carries the London-Brighton Railway Line over the River Ouse in Sussex.

It is located to the north of Haywards Heath and to the south of Balcombe.

Known for its ornate design, the structure has been described as "probably the most elegant viaduct in Britain."

What an amazing tunnel effect this bridge gives when looked along its length at ground level. These are our grandsons Joel and Sam just at the beginning of their careers. They are both now at University With their life stretching ahead of them.

I pray that Father God will guide them in their choices.

Thomas said to him "Lord we don't know where you are going, so how can we know the way Jesus answered, "I am the way and the truth and the life. No one comes to the Father except through me. If you really knew me, you would know my Father as well".
